Commonwealth of Massachusetts.

Insurance Department, Boston, April'8, 1896.

To the Honorable the Senate and House of Representatives.

In compliance with the provisions of law, herewith is submitted Part I., relating to fire and marine insurance, of the forty-first annual report of this Department.

The companies now transacting business in Massachusetts are classified as follows:—

ANOTHER INSURANCE SPASM.

There occurs periodically, in all classes of society, certain "isms" or fads which, like the ignis fatuus, allure people until they are lost in the swamp of despondency or bankruptcy. The field of insurance has not escaped. A few years ago the endowment fire-fly flitted through the air, and in the mad race for gain thousands of deluded people found to their cost that it was but a shadow; and this will 'o the wisp led them such a hurried chase that they refused to observe the danger signal set up by this Department, and not until the strong arm of the law interposed was their career checked.

The temptation for a quick fortune has again been embraced in the formation of mutual fire insurance companies. Corporations have been organized and hardly had the breath of corporative existence been put into the body ere it became the

prey of those who looked solely for the benefit of their own pockets. Risks were taken without any regard to the hazard, either moral or otherwise; anything that yielded a premium necessarily carried with it a commission which was conveyed immediately to the pockets of the managers. Western fields were sought, not by regularly applying for admission through legitimate channels, but by pecuniary inducements to agents who were only too eager to use the corporations as a slop bucket into which they could empty refuse risks, and when the inevitable losses came and assessments on policy-holders were levied, not on account of losses incurred at home — for in nearly every instance the business in Massachusetts has been remunerative - but in States where the corporations had no legal existence, then the citizens of this State had to bear the burden. The Commonwealth Mutual Fire Insurance Company furnishes a conspicuous instance: starting in business in December, 1893, it found itself at the close of one year with a balance against it of \$74,098.29, and in May, 1895, it was in the hands of a receiver. Attempts to collect assessments with which to settle demands for losses, met with resistance, and hearings, prolonged and arduous, before an auditor, whose final report to the court that an assessment of \$250,000 be levied, was ratified by the judicial tribunal.

The good name of our old Massachusetts mutuals has been dragged in the mire by the actions of some of the new irresponsible brood, and the record of years heretofore enjoyed by them is smirched and blackened thereby.

Some of the projectors of these new mutuals have considered their name and reputation as of more consequence than sudden riches and have continued business conservatively or closed up in an honorable manner while in a solvent condition. It is to be hoped that the lessons learned by bitter experience will not have been without some good results for the future.

During the year the following companies have, as indicated, retired from business:—

Wellfleet Marine, Wellfleet, voluntarily closed.

Suffolk Mutual Fire, upon petition of the Insurance Commissioner, placed in the hands of James C. Davis, 65 Mason Building, Boston, as receiver.

Commonwealth Mutual Fire, upon petition of the Insurance

Commissioner, placed in the hands of William B. Stevens, 209 Washington Street, Boston, as receiver.

[Receiver reports that he has received \$13,765.25, including \$2,260 now subject to attachment which will probably be dissolved; that the liability as known is \$93,248.71; that the auditor has recommended and the court confirmed an assessment of \$250,000.]

Patrons Mutual Fire, upon petition of the Insurance Commissioner, placed in the hands of Robert H. Leland, 209 Washington Street, Boston, as receiver.

Melrose Mutual Fire, upon petition of the Insurance Commissioner, placed in the hands of Alpheus Sanford, 70 Kilby Street, Boston, as receiver.

Bay State Mutual Fire, upon petition of the Insurance Commissioner, placed in the hands of Herbert Parker of Worcester as receiver.

[Receiver is not yet able to give any definite statement as to the condition of the affairs of the company.]

Colonial Mutual Fire, upon petition of the Insurance Commissioner, placed in the hands of W. O. Underwood, 50 State Street, Boston, as receiver.

[The receiver reports, under date of April 4, 1896, that he has received assets of \$14,898.71, upon \$6,000 of which there is an attachment which will probably be dissolved. The indebtedness of the company so far as known, taking face value of claims, is \$18,973.64. Two additional claims, amounting to \$2,520.04, have been rejected because the loss occurred subsequent to appointment of receiver. There are also some small claims in various States for taxes.]

First National Fire, reinsured in National of Hartford.

Tremont Mutual Fire, reinsured in the Globe Fire of New York.

THE BUSINESS OF THE PAST YEAR.

In the matter of fire insurance the risks written during the past year aggregated a larger amount, with a single exception, than during any one of the last twenty-five years, and the premiums received by the foreign and domestic companies within the Commonwealth were the largest ever known. The losses by fire were below the average of the last quarter of a century and in proportion to the premiums received the smallest during this entire period. Our own companies still continue, as the tables show, to suffer at the expense of those of other States and countries.

The changes since the last report, in companies authorized to transact business in the Commonwealth, are as follows:—

THE WORK OF THE FIRE MARSHAL.

In the Appendix to this report is presented the annual statement of Fire Marshal Whitcomb, and the result of the work accomplished in that office abundantly justifies the wisdom of the Legislature in creating that bureau, and fully authorizes a cordial and generous appropriation for its maintenance. One of the most serious evils in connection with the protection of the individual property holder against loss by fire is that of the torch of the incendiary. Under the existing statute the Fire Marshal, through his aids in the various parts of the Commonwealth, promptly investigates the origin and cause of every fire, and in each case where the same is believed to have been caused by an incendiary, the aid of the courts is invoked for the prosecution of the offender.

The marshal is unquestionably correct in his expression of opinion that to a very considerable degree incendiarism grows out of over-insurance. In a report a few years ago to this Department, in relation to the causes of fires, one town clerk said that the cause of a fire reported was undoubtedly "friction caused by a very small stock of goods rubbing up against a very large insurance policy." The statute at present provides for a penalty against any company or agent effecting insurance upon property for a larger amount than the value of the same. This clearly ought to be enlarged so as to make it a criminal offence with a very much heavier penalty than at present provided. Hold the agent criminally responsible for any overinsurance and a large proportion of the difficulty experienced and the suffering by the companies would be at once remedied. It is very significant, as is shown by the figures in the fire marshal's report, that since the establishment of that office, the confessions and convictions for causing incendiary fires have increased fully 300 per cent. Let it become fully understood that a department authorized by the Commonwealth, fully equipped for its work, has throughout the borders of Massachusetts its officials watching and investigating every fire, ready in case of suspicion of incendiarism to present the facts to the courts and to pursue the offender, and there is absolutely certain to result a very large diminution in the number of fires from this source. Every thousand dollars thus saved is so much money retained in property value to the citizens of the Commonwealth, and the Commissioner desires to express his cordial and hearty appreciation of the successful work of the fire marshal's office during the past year, and his belief that the worth of this bureau to the people of Massachusetts is annually in actual cash, many dollars for every one expended thereon.

WHAT SHOULD BE ATTEMPTED IN SUPERVISION.

In so far as the business of insurance proceeds upon plans which from the inherent nature of the undertakings must be technical and complicated beyond what is usual in ordinary commercial transactions, the Commonwealth ought to take consideration and regulation of the business. To such extent as the public is not able to understand and protect itself it is the duty of the Commonwealth to guard it against the chances of imposition and fraud. No further than this, either as respects the general methods of the business nor in its police regulations, is there justification for official interference any more than in any other commercial enterprise. As for instance, in savings banks and trust companies, reasonable regulations having been made as to the character of investments, and the disposition of the earnings, the business is then left substantially to the chances of competition. So in its purely financial aspects, aside from the scope of its technicalities, should the business of insurance be left unvexed by unnecessary restrictions.

THE NATIONAL CONVENTION OF INSURANCE OFFICIALS.

The years immediately following the close of the war were prolific of new business enterprises, — speculative and otherwise, — and among them various forms of insurance were promoted with great activity. Closely touching upon almost every kind of business, insurance soon came to be the subject of legislative notice and regulation. Its true principles being little known, the laws controlling it were quite naturally enacted rather to fit local and fortuitous conditions than with a view to the larger and equitable relations of the insurance system to the great and permanent interests of the whole com-

munity. New bureaus and departments for the administration of these laws were created in most of the States, and, naturally, with new laws touching a comparatively new and intricate subject, and new and generally inexperienced commissioners to execute them, it may readily be imagined that the companies soon found themselves in a maze of perplexities under so many and varied and often inconsistent requirements. The compliance with such a variety of often inconsistent laws, especially in respect to financial and business statements, became almost as great a burden to the companies as the conduct of their proper regular business, and they petitioned earnestly for relief. Professing always to be ready to give every item of information required, if only the commissioners could agree upon what such should be, so that a report or statement once made, copies of the same might practically serve for all.

With a view to the amelioration of this justly complained of burden, a meeting of the various State insurance officials was brought about in 1871, and such meetings have been held annually ever since.

The whole object and purpose of the early conventions of the commissioners and superintendents was consultation, discussion and the ascertaining of all possible facts in relation to the business and the best and clearest methods of presenting the operations and conditions of the companies to the public, as well as gaining the best suggestions for their respective legislatures for the enlightenment and improvement of their laws; and in such cases as discretion was left with the commissioners under their laws, to agree as nearly as possible upon some uniform methods for the convenience of all.

It was a body composed of wholly independent officials, met for informal, unofficial consultation and inquiry, — each seeking to gain information and advice so as best to enable him to administer his own laws, primarily in the interests of his own people and State, and incidentally to the best welfare of the whole community. A careful perusal of the records of the first convention shows that no one of the participants imagined that he was by his attendance binding himself to abide by the opinions or views of the majority or all of the rest in any case whatever unless it coincided with the statute of his State, his

own judgment and by his own expressed consent. If it had been understood at the outset that everyone who should accept the invitation to such meeting would thereby bind himself to obey any and every rule for the conduct of his official duties which the majority might adopt, it goes without saying that there would have been no first meeting of the State insurance officials.

The conventions were composed of men in earnest and sincere quest of the best light for their official guidance, with no wish but for the interest and convenience of their individual duties and a willingness to communicate freely such information and experience as they had for the aid of their neighbors. Their conferences were therefore of immense value and profit to themselves in an educational way and directly and necessarily a great convenience resulted to the companies in a large approach to uniformity of requirements by the various States. From these early meetings and their influences there soon appeared a very appreciable advance toward similarity of laws and simplicity of department methods, all of which were a great advantage to the general interests of the people and a lessening of cost and labor to the companies.

But in later years this important point has been partially lost sight of, and ignoring the absolute independence of the State laws and State officials of each and all others, the convention seems in a degree to have drifted into some sort of a putative legislative assembly, and in the opinion of some of the members it goes that whatever the majority shall decide must bind the others and all, just as if they were representatives of one State or constituency and charged with the duty of agreeing upon some single line of conduct instead of being, as they should be, simply visitors from each of the States, met to talk over and exchange views and experiences for the incidental advantage of each, with no binding power whatsoever upon the action of any other. The Commissioner for this Commonwealth feels impelled to officially emphasize his opinion as to the power and purposes of this convention, so far as controlling his judgment upon matters in which the statutes direct his action or leave it to his discretion.

FINANCES OF THE DEPARTMENT.

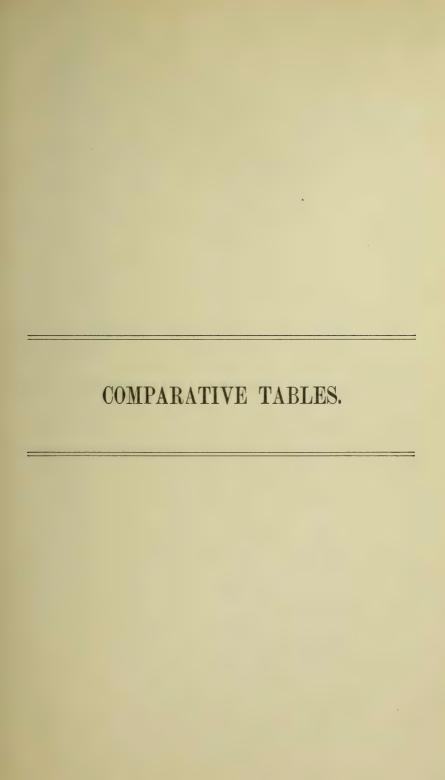

The income of the Department for the year 1895 was \$57,191.86, as shown in detail by Table XIV. The reduction by fifty per cent. in the valuation fee, applied for the first time to the receipts of last year, made a decrease of nearly \$11,000 in the net results. The surplus revenue accruing to the Commonwealth above the entire expenditures of the Insurance Department was \$23,418.20.

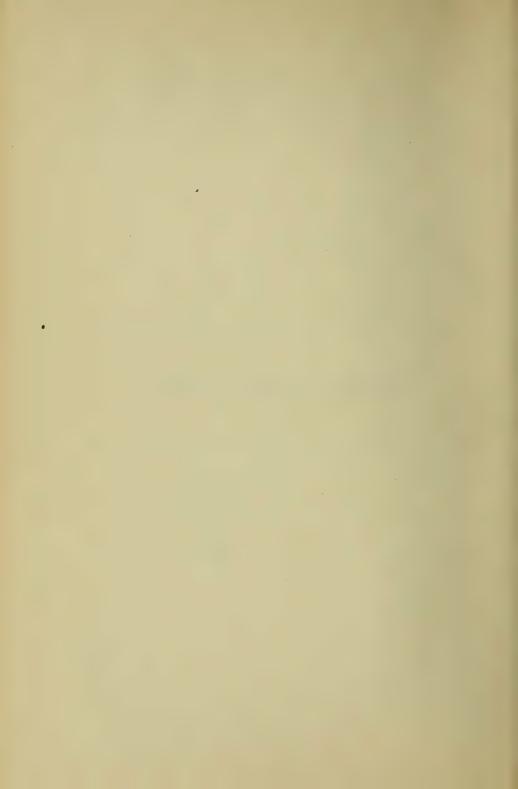

Respectfully submitted,

GEORGE S. MERRILL,

Insurance Commissioner.

^{*} Since rendering its annual statement the company has made good this impairment by a deposit with the trustees of a like amount in current funds. It is also claimed by the company that a loss of \$26,000, included in liabilities, has since been paid by "cash not in control of trustees," which would increase the surplus by an equal amount.

Each subscriber is required to insure vessel property to at least seven-eighths of the amount of stock taken by him. No vessels are insured except Gloucester fishing vessels. No one risk exceeds \$10,000. All risks terminate on the fifteenth day of November of each year, and each year's business is settled at the close of the year. Premiums commence in November at 9 per cent., and decrease as the season advances to 4 per cent., which is the lowest premium.

## SUGGESTIONS FOR LEGISLATION.

Commonwealth of Massachusetts.

INSURANCE DEPARTMENT, BOSTON, Jan. 1, 1896.

To the Honorable the Senate and House of Representatives in General Court assembled.

In accordance with the provisions of law, herewith is submitted such portions of the forthcoming report of the Insurance Commissioner as contain suggestions for legislative action:—

The provisions of the last paragraph of section 16 of chapter 367 of the Acts of the year 1894 have led to some confusion in regard to the change in the character of the corporations therein mentioned. The word "reincorporate" should be stricken out and a provision inserted by which the companies named may "avail themselves" of the privileges of the assessment act.

Under the provisions of the statute requiring in certain contingencies that the Insurance Commissioner should appoint a third referee in regard to a disputed fire loss, there has arisen some difficulty as to the payment of the said referee, and a provision ought to be inserted in the statute providing therefor.

Under the statute of last year reviving, with a smaller minimum sum than was required under former laws, the provision for a guarantee capital for a mutual fire insurance company, the question has arisen as to the application in such company when commencing business, of the provision of the law in regard to the number and amount of risks. The statute should be amended so as to provide that the exemption from these provisions should only apply to companies with a guarantee capital of not less than \$100,000.

The statutes of this Commonwealth forbid the transaction

within Massachusetts of any insurance business except by representatives of duly authorized companies. The experience of the past year and a half has shown that some of the new mutual fire insurance companies of this Commonwealth have gone into other States where they had not been legally admitted, transacting a large amount of business upon which it is exceedingly doubtful if any assessment can be collected. The result is that not only in these incursions into unauthorized territory do the companies of Massachusetts deliberately infringe upon the laws of other States, but that in the ultimate event of losses the Massachusetts policy-holders are required to pay a very much larger assessment than would have been the case had this business not been illegitimately carried on. The statute should absolutely forbid companies of this class from transacting business in States into which they have not been lawfully admitted.

The disastrous failure in one of the cities of the Commonwealth of a voluntary association holding a very considerable amount of funds, while not incorporated but promising to pay gratuities to its members, suggests the desirability of an amendment to the statute by which such holding of funds shall be forbidden, except by duly incorporated associations.

The act passed last year legitimatizing the business of insurance against loss from sprinklers has not entirely met the public want in this direction, and it would seem as if the statute might be further enlarged without danger to the public and in the interest of those having stocks of goods which they desire to have thus insured.

The work of the department in all of its branches has increased three-fold within the past twenty years, while the number of clerks employed otherwise than in the actuarial business has not been increased for more than twenty years. It is absolutely necessary to the proper conduct of the work of the office that there should be added to the list of employees an examiner.

While the statutes of Massachusetts require that a license as agent shall be granted only to a resident of this Commonwealth the provision is made that a license as a broker may be issued to any suitable person. Under this law, citizens of other States — notably of the adjoining State of New Hampshire —

are given licenses as brokers and are thus permitted to come into Massachusetts and transact insurance business, while the laws of these same States—conspicuously New Hampshire—forbid the granting to a citizen of Massachusetts any authority whatever to transact insurance business in such State. It would seem as if the law of reciprocity or retaliation ought to be so far strengthened as to forbid the issuance of a broker's license to transact business in Massachusetts to a resident of any State wherein the laws forbid the issuance of a like license to a citizen of Massachusetts.

Attention is again invited to the salary of the Insurance Commissioner. As was stated last year, for several years prior to 1875 the salary of the Insurance Commissioner of this Commonwealth was \$5,000. By the specific provisions of chapter 434 of the Acts of the year 1869, entitled "An Act providing compensation for clerical and actuarial services in the insurance department," the cost of clerical assistance, incidental and contingent expenses are to be paid out of the fees received from the insurance companies. These fees, which are in addition to the ordinary and usual taxes paid by the insurance companies in like form and manner as any other corporations, are by the act mentioned specifically provided for the purpose of paying the expenses of the Department. For many years they have been largely in excess of the entire cost, and a very considerable sum is annually paid therefrom into the treasury above the entire expense of carrying on the Insurance Department. The companies paying these fees are unanimously in favor of having a larger portion devoted to the salary of the Insurance Commissioner than at present.

The increase in business since 1875, when the salary was \$5,000, has been enormous, as is shown by the following comparison of the principal items, giving the business of companies reporting to the Department:—

				1875.	1895.
Number of policies in force,				765,422	1,904,413
Amount of same,				\$1,907,000,000	\$4,845,983,742
Receipts of Department,				39,929	57,191
Surplus to State over expenditures,				13,239	24,000

Further than this, the following compilation shows the increase in the work of the Department from 1887 to 1895, during the incumbency of the present Commissioner:—

		1887.	1895.	Per Cent Increase
Level premium policies, number,		2,451,025	8,673,787	254
Level premium policies, amount,		\$2,586,833,026	\$6,395,635,455	160
Fire and marine reported,		12,574,338,031	17,741,429,891	42
Assessment companies, number reporting,		27	. 30	11
Assessment companies, amount of insurance,		\$655,336,843	\$1,373,392,068	110
Fraternals, number reporting,		74	273	270
Fraternals, amount of insurance,		\$34,440,000	\$1,298,815,500	3,600
Agents and brokers, licensed and registered,		5,993	16,600	190
Official letters written, pages,		1,230	4,884	300

It will be seen that, even omitting the extraordinary item of amount of insurance reported by the fraternal corporations, the average increase is 167 per cent. With this presentation of facts in regard to the increase of the work and the accepted facts in regard to the standing of the Department, it is again modestly suggested that there would seem to be no reason why the salary of the Insurance Commissioner of Massachusetts should not be equal to that of the Superintendent of Insurance of the State of New York.

The statute of last year in relation to closing the affairs of the small fraternal beneficiary corporations, owing to relaxing amendments made during its consideration, has resulted in winding up but ten of these corporations. There remain, not enumerating some thirty police and firemen's relief associations, necessarily small, over one hundred of these corporations with less than one hundred and fifty members each, and nearly one-half have less than fifty each. It cannot be shown that the existence of such number of weaklings is of possible advantage to the people of the Commonwealth.

Respectfully submitted,

GEO. S. MERRILL,

Insurance Commissioner.

#### NEW INSURANCE STATUTES.

The following acts, in addition to those printed in the last report, were passed by the Legislature of 1895 and 1896, and are hereby published for information:—

[Acts of 1895 subsequent to those published in last Fire Report.]

#### [CHAP. 366.]

AN ACT RELATIVE TO THE ISSUING OF LIFE INSURANCE POLICIES WITH-OUT PREVIOUS MEDICAL EXAMINATION.

Section 1. No life insurance company organized under the laws of or doing business in this Commonwealth shall enter into any contract of insurance upon lives within this Commonwealth without having previously made or caused to be made a prescribed medical examination of the insured by a registered medical practitioner.

SECT. 2. Any insurance company violating the provisions of this act, or any officer, agent or other person soliciting or effecting, or attempting to effect, a contract of insurance contrary to the provisions hereof, shall be deemed guilty of a misdemeanor and shall be punished by a fine not exceeding one hundred dollars for each offence.

SECT. 3. This act shall take effect on the first day of September in the year eighteen hundred and ninety-five. [Approved May 9, 1895.

#### [CHAP. 403.]

AN ACT TO AUTHORIZE THE SUPREME COUNCIL AMERICAN LEGION OF HONOR TO HOLD ITS MEETINGS WITHOUT THE COMMONWEALTH.

Section 1. The Supreme Council American Legion of Honor may hold its meetings in any state wherein a council of said corporation is established; and its acts at such meetings shall have the same effect as if done within the Commonwealth.

SECT. 2. This act shall take effect upon its passage. [Approved May 21, 1895.

#### [CHAP. 474.]

An Act providing for certain classes of property insurance.

Section 1. Section twenty-nine of chapter five hundred and twenty-two of the acts of the year eighteen hundred and ninety-four is hereby amended by adding at the end of said section, the following words:—

Seventh, To insure against loss or damage by water to any goods or premises arising from the breakage or leakage of sprinklers and water pipes.

Eighth, To insure against loss or damage to property arising from accidents to elevators, bicycles and vehicles, except rolling stock of railways,—so as to read as follows:—Section 29. Insurance companies may be formed as provided in section thirty for any one of the following purposes, to wit:—

First, To insure against loss or damage to property by fire, lightning, or tempest on land, upon the stock or mutual plan.

Second, To insure upon the stock or mutual plan, vessels, freights, goods, money, effects, and money lent on bottomry or respondentia, against the perils of the sea and other perils usually insured against by marine insurance, including risks of inland navigation and transportation.

Third, To guarantee the fidelity of persons in positions of trust, private or public, and to act as surety on official bonds and for the performance of other obligations.

Fourth, To insure against loss or damage to property of the assured, or loss or damage to the life, person or property of another for which the assured is liable, caused by the explosion of steam boilers.

Fifth, To insure any person against bodily injury or death by accident, or any person, firm or corporation against loss or damage on account of the bodily injury or death by accident of any person for which loss or damage said person, firm or corporation is responsible.

Sixth, To insure against the breakage of plate glass, local or in transit.

Seventh, To insure against loss or damage by water to any goods or premises arising from the breakage or leakage of sprinklers and water pipes.

Eighth, To insure against loss or damage to property arising from accidents to elevators, bicycles and vehicles, except rolling stock of railways.

Sect. 2. Section thirty-one of said act is hereby amended by striking out in the ninth line, the word "or," and by inserting in the tenth line, after the words "steam boiler insurance", the words:—or for the transaction of the business authorized under the seventh or eighth paragraph of section twenty-nine of this act,—so as to read as follows:—Section 31. No corporation so formed shall transact any other business than that specified in its charter and articles of association. Companies to insure plate glass may organize with a capital of not less than one hundred thousand dollars. Companies so formed insuring marine or inland risks upon the stock plan shall have a capital of not less than three hundred thousand dollars. Companies so formed for the transaction of fire insurance on the stock plan, of fidelity insurance, of accident insurance, of

steam boiler insurance, or for the transaction of the business authorized under the seventh or eighth paragraph of section twenty-nine of this act shall have a capital of not less than two hundred thousand dollars. Companies may be so formed to insure mechanics' tools and apparatus against loss by fire for an amount not exceeding two hundred and fifty dollars in a single risk, with a capital of not less than twenty-five thousand dollars, divided into shares of the par value of ten dollars each.

Mutual companies heretofore organized to transact employers' liability insurance may continue such business under the fifth paragraph of section twenty-nine of this act, and such companies shall be subject to the laws, so far as applicable, in relation to mutual fire insurance companies. No company shall be required to have on deposit with the treasurer of the Commonwealth an amount in excess of what is sufficient to enable it to comply with the laws of the states in which it transacts business; and all sums in excess of this amount held on deposit with the treasurer of the Commonwealth or elsewhere shall be counted as of the surplus funds of the company.

SECT. 3. Section eighty of said act is hereby amended by adding at the end of said section the words: - provided, however, that a company authorized to transact within this Commonwealth the business of steam boiler insurance or the business authorized under the eighth paragraph of section twenty-nine of this act may also be permitted to transact the business authorized under the seventh paragraph of said section, - so as to read as follows: - Section 80. No foreign insurance company hereafter admitted to do business in the Commonwealth shall be authorized to transact more than one class or kind of insurance therein. But any company, domestic or foreign, engaged in this Commonwealth in the sole business of life insurance may, in connection therewith, also engage in the business of insuring against bodily injury or death by accident, by increasing its capital to the amount now required of two separate companies engaged in either one of these two classes of business; and no company now or hereafter admitted shall be allowed to transact both of said classes of business unless it possesses an aggregate capital equal to that required of two separate companies engaged in either one of these classes of business: provided, however, that a company authorized to transact within this Commonwealth the business of steam boiler insurance or the business authorized under the eighth paragraph of section twenty-nine of this act may also be permitted to transact the business authorized under the seventh paragraph of said section.

Sect. 4. This act shall take effect upon its passage. [Approved June 4, 1895.

The following act, relating to the question of insurance, was also passed:—

[CHAP. 293.]

An Act relative to damages from fires communicated by locomotive engines.

Section 1. Section two hundred and fourteen of chapter one hundred and twelve of the Public Statutes is hereby amended by adding at the end thereof the following words: - In case such railroad corporation is held responsible in damages it shall be entitled to the benefit of any insurance effected upon such property by the owner thereof, less the cost of premium and expense of recovery. The money received as insurance shall be deducted from the damages, if recovered before the damages are assessed; if not so recovered the policy of insurance shall be assigned to the corporation held responsible in damages, and such corporation may maintain an action thereon, - so as to read as follows: - Section 214. Every railroad corporation and street railway company shall be responsible in damages to a person or corporation whose buildings or other property may be injured by fire communicated by its locomotive engines, and shall have an insurable interest in the property upon its route for which it may be so held responsible, and may procure insurance thereon in its own behalf. In case such railroad corporation is held responsible in damages it shall be entitled to the benefit of any insurance effected upon such property by the owner thereof, less the cost of premium and expense of recovery. The money received as insurance shall be deducted from the damages, if recovered before the damages are assessed; if not so recovered the policy of insurance shall be assigned to the corporation held responsible in damages, and such corporation may maintain an action thereon.

Sect. 2. This act shall take effect upon its passage. [Approved April 18, 1895.

AN ACT CONCERNING FRATERNAL BENEFICIARY ORGANIZATIONS.

Section 1. Section sixteen of chapter three hundred and sixty-seven of the acts of the year eighteen hundred and ninety-four is hereby amended by striking out in the twenty-third line, the words, "re-incorporate under", and inserting in place thereof the words:—adopt the provisions of,—so that said section shall read as follows:—Section 16. Any fraternal beneficiary corporation existing under

the laws of this Commonwealth, and now engaged in transacting business as herein defined, may re-incorporate under the provisions of this act: provided, that nothing in this act contained shall be construed as requiring or making it obligatory upon any such corporation to re-incorporate; and any such corporation may continue to exercise all rights, powers and privileges conferred by this act or its articles of incorporation not inconsistent herewith, and shall be subject to the requirements and penalties of this act the same as if re-incorporated hereunder. No charter granted under the provisions of this act shall continue valid after one year from the date of such charter unless the organization has been completed and business begun thereunder. All charters heretofore granted under chapter four hundred and twenty-nine of the acts of the year eighteen hundred and eighty-eight and acts amendatory thereof, and all charters hereafter granted under this act, shall become invalid and of no force if no business thereunder shall be transacted for a period of twelve months. Any such corporation having three thousand or more members may, with the approval of the insurance commissioner, adopt the provisions of chapter four hundred and twenty-one of the acts of the year eighteen hundred and ninety, and thereafter conduct its business in accordance with the provisions of said chapter.

Sect. 2. This act shall take effect upon its passage. [Approved February 19, 1896.

AN ACT RELATIVE TO MUTUAL COMPANIES WITH A GUARANTY CAPITAL.

Section 1. Section thirty-nine of chapter five hundred and twenty-two of the acts of the year eighteen hundred and ninety-four is hereby amended by inserting in the second line, after the word "organized", the words: — nor by a mutual fire insurance company with a guaranty capital of less than one hundred thousand dollars, —

so that the section as amended shall read as follows: - Section 39. No policy shall be issued by a purely mutual fire insurance company hereafter organized, nor by a mutual fire insurance company with a guaranty capital of less than one hundred thousand dollars, until not less than one million dollars of insurance, in not less than four hundred separate risks upon property located in Massachusetts, has been subscribed for and entered on its books; except that in any town of less than four thousand inhabitants a company may be formed to insure only dwelling houses, farm buildings, and their contents within such town, and may issue policies when fifty thousand dollars of insurance has been subscribed for. No officer or other person whose duty it is to determine the character of the risks, and upon whose decision the applications shall be accepted or rejected by a mutual fire insurance company, shall receive as any part of his compensation a commission upon the premiums, but his compensation shall be a fixed salary and such share of the net profits as the directors may determine. Nor shall such officer or person aforesaid be an employee of any officer or agent of the company.

Sect. 2. This act shall take effect upon its passage. [Approved March 3, 1896.

An Act in relation to certain organizations paying only funeral and sick benefits.

Section 1. Any existing fraternal beneficiary corporation or association conducting business upon the lodge system, and any existing purely charitable association or corporation, which pays a death or funeral benefit not exceeding one hundred and twenty-five dollars and disability benefits not exceeding five dollars per week, is hereby authorized to continue in this Commonwealth such business without otherwise conforming to the provisions of chapter three hundred and sixty-seven of the acts of the year eighteen hundred and ninety-four.

Sect. 2. This act shall take effect upon its passage. [Approved March 5, 1896.

#### [CHAP. 137.]

An Act in relation to the compensation of referees appointed by the insurance commissioner.

Section 1. The last clause of section sixty of chapter five hundred and twenty-two of the acts of the year eighteen hundred and ninety-four is hereby amended by adding thereto the following words:—

In every case of the appointment by the insurance commissioner of said third referee the insuring company or companies shall withhold from the amount of the award rendered one half of the compensation and expenses of said referee, and the said company or companies shall thereupon be obligated to pay to the said referee the full amount of the expenses for such reference, — so that said closing paragraph of said section shall read as follows:—

In case of loss under any fire insurance policy, issued on property in this Commonwealth, in the standard form above set forth, and the failure of the parties to agree as to the amount of loss, if the insurance company shall not, within ten days after a written request to appoint referees under the provision for arbitration in such policy, name three men under such provision, each of whom shall be a resident of this Commonwealth and willing to act as one of such referees; and if also such insurance company shall not, within ten days after receiving the names of three men named by the insured under such provision, make known to the insured its choice of one of them to act as one of such referees, it shall be deemed to have waived the right to an arbitration under such policy, and be liable to suit thereunder, as though the same contained no provision for arbitration as to the amount of loss or damage. And in case of the failure of two referees, chosen, respectively, by the insurance company and the insured, to agree upon and select within ten days from their appointment a third referee willing to act in said capacity, either of the parties may within twenty days from the expiration of said ten days make written application, setting forth the facts, to the insurance commissioner to appoint such third referee; and said commissioner shall thereupon make such appointment and shall send written notification thereof to the parties. In every case of the appointment by the insurance commissioner of said third referee the insuring company or companies shall withhold from the amount of the award rendered one half of the compensation and expenses of said referee, and the said company or companies shall thereupon be obligated to pay to the said referee the full amount of the expenses for such reference.

Sect. 2. This act shall take effect upon its passage. [Approved March 5, 1896.

#### [CHAP. 140.]

An Act to extend the powers of fire insurance companies.

Section 1. All insurance companies authorized to transact fire insurance business in this Commonwealth may, in addition to the business which they are now authorized by law to do, insure sprinklers, pumps and other apparatus erected or put in position for the

purpose of extinguishing fires, against damage, loss or injury resulting from accidental causes, other than fire; and may also insure any property which such companies are authorized to insure against loss or damage by fire, against damage, loss or injury by water or otherwise, resulting from the accidental breaking of or injury to such sprinklers, pumps or other apparatus, arising from causes other than fire.

SECT. 2. Contracts of insurance of the kind provided for in the first section of this act shall not be incorporated in any contract of insurance against loss or damage by fire, but shall be contained in separate and distinct policies, the conditions of which shall be prescribed by the insurance commissioner of the Commonwealth.

Sect. 3. This act shall take effect upon its passage. [Approved March 11, 1896.

#### [CHAP. 171.]

AN ACT TO AUTHORIZE INSURANCE COMPANIES TO MAKE ADDITIONAL INVESTMENTS OF THEIR CAPITAL STOCK.

Section 1. In addition to the investments now allowed by law the capital stock of insurance companies may be invested in any of the securities in which savings banks may invest their deposits.

SECT. 2. This act shall take effect upon its passage. [Approved March 19, 1896.

#### REPORT

OF THE

## MASSACHUSETTS STATE FIRE MARSHAL

TO THE

#### INSURANCE COMMISSIONER

OF THE

COMMONWEALTH OF MASSACHUSETTS.

JANUARY 1, 1896.

### Commonwealth of Massachusetts.

Office of State Fire Marshal, Boston, Feb. 15, 1896.

Hon. GEORGE S. MERRILL, Insurance Commissioner.

DEAR SIR: — I have the honor to submit herewith, in compliance with law, the second annual report of this office, being the first report, however, covering the work of an entire year.

The total number of fires occurring throughout the State during the year was 3,606, as against 3,821 in 1894. The total loss caused by fires in 1895 was \$5,307,803, while the fire loss for 1894 was \$6,107,500, showing a decrease in the annual State fire loss for the present year of \$800,000.

In the city of Boston 719 fires have occurred during the year, causing a loss of \$1,190,845. In 1894 Boston had 1,007 fires, which resulted in a loss of \$1,623,527.

Five per cent. of the total number of Boston fires were of incendiary origin, while fourteen per cent. of the fires occurring outside of Boston were incendiary. This disparity between the number of incendiary fires occurring in Boston and in the outside towns and cities may be largely accounted for by the fact that for a number of years before the establishment of the State Fire Marshal's office all Boston fires were investigated under the fire marshal system, and the annual percentage of incendiarism had thereby become reduced to a normal average of about five per cent. It remains to be seen to what extent the percentage of incendiary fires in the State outside of Boston will ultimately be affected by the present system of universal investigation. The combined percentage of these, outside of Boston incendiary and unknown fires (under which latter head many cases of incendiarism were formerly covered up), during the two years prior to the establishment of the State Fire

Marshal's office was thirty-five per cent. of the total number of fires, being about the same percentage that these two classes of fires maintained in Boston prior to the inauguration of the fire marshal system in that city. During the past year the percentage of these incendiary and unknown fires outside of Boston has been reduced from thirty-five to twenty-one per cent. The number of actual incendiary fires occurring outside of Boston, as given in the report, is, however, somewhat larger than that of last year, owing to the fact that a large number of fires formerly classed as unknown have been placed where they properly belong, in the incendiary column.

During the year there have been 86 arrests for 84 incendiary fires, resulting in 46 final convictions, there being 15 additional cases where the defendants have been found probably guilty in the lower courts and who are now awaiting final trial in the higher courts.

During the year prior to the establishment of the Fire Marshal's office 17 convictions were obtained throughout the State or about 18 per cent. of the total number of arrests as against convictions, amounting to 55 per cent. of the total number of arrests obtained during the present year.

In proportion to the number of fires occurring in buildings of any particular class picture frame factories have had the largest number of incendiary fires, followed, respectively, by ice houses, unoccupied buildings, lumber yards, barns and storehouses.

A very large proportion of the incendiary fires have been set for the purpose of obtaining insurance, the smaller percentage being attributable to motives of spite and revenge or to the irresponsible acts of an unbalanced mind. In view of this fact it may not be amiss at this time to call attention to the principal incentive in these cases of incendiarism for gain, viz., over-insurance. Why does it prevail and what is the remedy? Naturally there are many cases where a merchant may be legitimately over-insured, as, for instance, where at certain seasons of the year his stock becomes naturally depleted so that its inventoried valuation might be materially less than the amount of the insured risk carried for the year. In a large majority of cases, however, where incendiarism

results from over-insurance, the fault may be laid directly at the door of the present methods of conducting the insurance business. The system seems radically wrong in various respects and, while I do not desire to assume censorship over the business customs of a commerical institution so old as that of fire insurance, and which consequently must be considered to have obtained as the product of intelligent and experienced judgment, it may not be considered presumptuous to point out what seems a glaring as well as a most expensive defect in fire-insurance methods and one which ought not to be unremediable. The root of the evil lies in the fact that the interests of brokers and sub-agents, who have no responsibility as the representatives of any particular insurance company, and the interests of the insuring companies themselves are diametrically opposed to one another. It is the natural object of a broker to place all the insurance and earn all the commissions he can, regardless of the character of the risk or of the ratio of the amount of insurance issued to the valuation of the property insured.

The insurance company, on the other hand, is interested in accepting only the risks of honorable individuals, accompanied by a minimum proportion of physical hazard. It should not be forgotten that the character and standing of an applicant for insurance are as important factors in determining the desirability of a risk as the physical hazard of the property insured. It may be well to cite one or two instances of what might almost be considered criminal over-insurance:—

A young man in one of the larger cities engaged in the grocery business, having no previous knowledge of it. He stocked his store to the amount of \$300 and at once saw an insurance agent, who went to the store, viewed the stock and placed a policy of \$1,000 on the same, knowing that it did not amount to over \$300, accepting the proprietor's word that he was going to stock up to the amount of \$1,000. This agent was in the habit of visiting the store and knew that instead of increasing the stock was diminishing. Notwithstanding such knowledge he allowed the insurance to stand and finally there was an incendiary fire. An investigation followed, resulting in the arrest and conviction of the proprietor, who was sentenced to three years in the house of correction. His store

was situated in the central part of the city, attached to a building occupied as a dwelling and in close proximity to many other dwellings built of wood. The fire occurred in the night-time, and but for the prompt and efficient efforts of the fire department no one can estimate the loss which would have followed.

Another case will also illustrate the evils of this system; a man in Essex County started a dry and fancy goods business. A fire occurred in his store, or rather three fires, which were discovered by firemen who extinguished them with a small loss. An inventory taken by experts at the time showed that just before the fire there was less than \$200 worth of goods in the store. The man was arrested and at the trial the insurance agent testified that a short time before the fire he placed \$5,000 insurance upon these goods; he never was in the store and did not know whether the man had any goods or not. The man was convicted and sentenced to five years in State Prison.

On another occasion a Russian herdic driver, without experience, leased a store for a month and started in the jewelry business. He put in a stock of goods which inventoried less than \$500 and which he himself did not claim to be worth over \$1,000. Through a small broker he procured an insurance of \$5,000 on the representation that he expected to increase the value of his stock within a short time. Two weeks after taking out his insurance the place was burned, all the gas-jets being found unlighted and turned on at the time of the fire. This man was convicted and sentenced to four years in State Prison.

In each of these cases the general agents of the insurance companies relied upon the supposed knowledge and on the implied or actual representations of the broker as to the character of the assured and his risk.

A system which allows an agent to place such over-insurance is most pernicious and offers a standing premium for the commission of crime. When it is considered that this is done for the purpose of putting a few dollars into the pockets of an agent in the shape of commissions on his business, thereby endangering the lives and property of the people of the Commonwealth as well as causing great financial loss to insurance

companies and consequently to the public, it is evident that some steps should be taken for remedying the evil.

I would suggest that these brokers and sub-agents be notified that all such cases of culpable over-insurance on their part which come to the knowledge of this office will be forthwith reported to the insurance commissioner, and, if found to be supported by proper evidence, shall be deemed sufficient cause for the commissioner to cancel such broker's license to do business in the Commonwealth.

Forty per cent. of these insurance-defrauding fires were the work of parties with a record, that is, who had previously collected or attempted to collect insurance from one to eight times on fires which were believed to be incendiary, or at least were looked upon as suspicious, and in one instance it was shown that a party who was carrying a large amount of insurance, and on whose premises an incendiary fire had occurred, had been tried, convicted and served sentence for attempting to defraud an insurance company by a fire a few years previous. The public should insist upon it that insurance brokers and the insurance companies themselves should cease carrying on business by methods characterized by such criminal negligence. It would be censurable enough for the insurance company to thus gamble on a bad risk if nothing more were at stake than the trust funds of the public, which constitute the capital of insurance companies, but the harm reaches much deeper than the mere treasury of the insurance company, as a fire set by one of these repeaters, impelled to his crime by the possession of an insurance policy, is liable to spread beyond the limits of the incendiary's property until it shall have destroyed taxable values unprotected by insurance, and possibly the lives of innocent individuals as well. What life-insurance company would accept a risk upon a man who had previously suffered from two or three strokes of paralysis? The risk on the life of a confirmed paralytic is no more hazardous than that upon the property of the repeating incendiary. I would suggest that, in the case of all new or unknown applicants for insurance, they be required to state how many times a loss by fire had occurred on premises occupied by them or where they had an interest in the insured property. Also that, in considering the applications

of "The Star Spangled Banner Hat Company," "The E Pluribus Unum Suspender Company," or "John Smith & Co.," care be taken to ascertain that no person with a previous record for insurance swindling was nestling under its innocent and high-sounding cover.

Another class of criminal fires of which special mention should be made is that of the youthful incendiary. During the year 71 fires were set by boys, causing a loss of over \$88,000. As a rule the courts feel inclined to deal leniently with the young offenders on account of their age, and often place them on probation instead of sending them to some school or correctional institution. It may not be just to hold the juvenile fire-bug equally responsible with the one of maturer years, but at the same time it must be borne in mind that the insignificant match of the malicious small boy stealthily taken from his mother's kitchen is liable to destroy as much property and imperil as many lives as the incendiary torch of the adult criminal. The small boy may not, from an ethical standpoint, be fully responsible for setting fires, neither in fact is the pyromaniac, nor much less is a rattlesnake to be blamed for being a rattlesnake, yet the safety of human lives and the laws of society decree that both of the latter shall be removed out of the way beyond possibility of doing further harm to the public. Why not apply the same rule to the incendiary combination of the malicious small boy and his match? Freight cars and hay cars seem to have been the favorite object of attack on the part of the young incendiary, and here it occurs to call attention to an apparent oversight in the statutes so far as they relate to the destruction of property by fire. While full provision is made for punishing those who set fires to buildings, vessels, stacks of hay, fences, and, in fact, property of almost every conceivable description, the statutes do not make it a crime to burn a freight car. In the case of an incendiary car fire it is useless to charge the boys with "maliciously and wilfully destroying or injuring the property of another," as provided for in the statutes under the chapter on malicious mischief, as the courts hold that the small boy is influenced by no actual malice and that no malice can be presumed, as in the case of burning a building. I would therefore suggest that section 4 of chapter 203 of the Public Statutes be

amended by specifying railway cars in addition to the various other kinds of property therein enumerated.

Among the various kind of incendiaries quite a number of pyromaniacs have been found, and these have been sent to some asylum or institution where they could be properly treated until such time as they could be safely restored to their liberty. There is a wide difference between the pyromaniac and the so-called fire-bug, or person who sets fires actuated merely by a spirit of malice or pure evil-mindedness (often superinduced by drunkenness), or whose motive is to create excitement or see the engines come out. The pyromaniac is impelled to his act by an irresistible impulse which he cannot control and is influenced by no motive whatsoever. He or she is the unfortunate victim of a morbid mental condition which appears to be invariably the result of certain abnormal physical conditions which, when they occur, are generally found to exist among young girls between the ages of twelve and sixteen, women of various ages, more frequently those about forty-five, and boys between the ages of fourteen and eighteen. I have thus far always found the disease to be of a temporary nature and find that it generally disappears simultaneously with the disappearance of physical irregularities.

Owing to the improper and, oftentimes, criminal construction of buildings in cities and towns outside of the city of Boston, frequently resulting, in the event of a fire, in the sudden collapse of the building and the consequent spread of the flames to other buildings and the loss of lives, I would respectfully suggest to the legislature that it is of the utmost importance that a building law be enacted which shall apply to medium-sized cities and towns throughout the Commonwealth in order to provide for the construction, regulation and inspection of buildings and a more effectual prevention of fires and the better protection of property and life therein.

Although the explosion of kerosene oil has caused a less number of fires than usual a test of the various exploding oils has shown that, while they invariably conform to the standard required by law (igniting test 110° F., flash test 100° F.,) none of them ignited when subjected to a test of over 128°. As these tests corroborate and confirm previous tests made several years ago by the Fire Marshal of the city of Boston

I advise that the standard laid down in the statutes be raised from 110° F. to at least 130° F.

As the result of notifications sent out by the office, in accordance with the provisions of the statute establishing the same, "dangerous and inflammable conditions" have been removed from many premises, thereby materially diminishing the physical fire-hazard, and in no case has it been found necessary to make legal complaint against parties notified for failure to comply with the request of the office in this respect.

I have thought it wise to defer discussing at any length the general subject of fires and their various causes until such discussion might be based upon the more satisfactory statistics of a two years' State record.

It may, I think, be said, without fear of contradiction, that the results of the year's work have proved not only valuable to the Commonwealth but have demonstrated as well that the existence of such an office is most essential if not well-nigh indispensable to the welfare of her people.

Many factors have contributed to the success of the work, special credit being due to the chiefs and members of the fire and police departments throughout the State for their valuable assistance.

Respectfully submitted,

CHAS. W. WHITCOMB,

State Fire Marshal.

#### FIRE LOSSES IN MASSACHUSETTS DURING THE YEAR.

The following table shows the number of fires in each city and town of the Commonwealth during 1895, with the amount of the loss as reported to this Department. (The "star" indicates that no fires occurred during the year.)
